

# PM204

**POWER ON 4T**  
Synthetic  
Motorcycle 10W40  
API: SN JASO: MA-2

## Synthetic High-Performance Motorcycle Engine Oil

### Product Information

PM POWER ON 4T 10W40 is a premium synthetic motorcycle engine oil that has been developed to meet the requirements of 4-stroke motorcycle engines. Coupled with the developments, are performance improvements that bikers are looking for with open-air riding. POWER ON has been designed to maximize performance for motorcycle engines and provide riders with dynamic performance and a high level of reliability they will cherish.

POWER ON 4T 10W40 will sustain high-temperature performance due to the careful selection of thermally stable base oils and high-quality advanced technology additives. Peak engine performance, especially in sustained high-speed operation, is a luxury where the threat of high-temperature deposits and lacquer resulting from oxidation and nitration can occur should a lean-burn setting exist. POWER ON 10W40 experiences less oxidation resulting in enhanced protection compared to conventional engine oils.

PM POWER ON 4T is suitable for all 4-stroke motorcycles, both carburettor, and fuel injection, and meets and exceeds the API Service Classification SN & JASO MA-2. Friction is optimised which permits a faster acceleration. Both wet and dry clutch systems are catered for and deliver the physical, chemical, and clutch frictional indices which the JASO MA-2 standard requires.

### Typical Properties:

<b>SAE Viscosity</b>	<b>10W40</b>
<b>Kinematic Viscosity</b>	
Viscosity @ 40°C	93.1 cSt
Viscosity @ 100°C	14.5 cSt
Pour Point °C	-24
Flash Point °C	TBA
Viscosity Index	162
Density @ 15°C kg/L	0.852

### Exceeds Service Classifications:

- API: SN
- JASO T903: 2006 MA-2

**PM204 POWER ON 4T**  
**High Performance**  
**and Low Wear.**

### Benefits:

- Improves Power
- Superior Combustion
- Friction Optimised
- Superior Acceleration
- Lower Wear Rates
- Piston Scuffing Elimination
- Increased Reliability

**DO MORE WITH LESS**

### Why PM Lubrication?

- ★ Premium Quality
- ★ XPR (Xtra Protection Reserve)
- ★ Cost-Effective Lubrication

Available in 205L, 5L, and 1L Containers
