

### Product Information

PM314 Power Steering Fluid is formulated for use in power steering systems requiring an 80W ISO 68 Fluid.

PM314 Power Steering Fluid is recommended for use in vehicles such as some Ford Models. AU Series Falcon, EL Series Falcon, NL Series Ford Fairlane, and the DC Series Ford LTD.

PM Lubrication cautions against using this product in vehicles where automatic transmission fluid is recommended, such as Dexron. Refer to the Owner's Manual Handbook for recommendations.

### Typical Properties

<b>SAE Viscosity</b>	10W30
SAE Gear Oil	80W
ISO @ 40°C	68
Viscosity Index	120
Density @ 15° C kg/L	0.880

### Benefits

- Cleaner Fluids
- Excellent Seal Compatibility

### Meets and or Service Classifications

- Allison C3, C4
- Caterpillar TO-2
- Case UK-DBT
- Dennison HF-1, HF-2
- Ford M2C-86B, M2C-86C, M2C-134D

### PM314 Power Steering Fluid

**Do More with Less**

### Why PM Lubrication?
