

Performance and Protection For Petrol Engines

Product Information

PM403 MotorLife Premium provides the excellent protection required in the late modern engine, using high-quality base oil and the latest additive packages. Viscosity shear is minimised which in turn provides enhanced thermal stability and will inhibit the formation of excessive contamination which results from regular short running or in the sustained high-speed highway application.

PM403 MotorLife Premium provides greater protection from the effects of oxidation and piston deposits keeping your engine running in peak condition for longer.

PM MotorLife Premium will maintain lubrication properties under tough operating conditions, permitting longer drain periods in both petrol and gas-powered engines.

Minimises friction and wear while maintaining power output. Sustains oil pressure.

Incorporates all of PM Lubrication's Friction Reduction Technology.

Typical Properties:

SAE Viscosity	20W50
Kinematic Viscosity	
Viscosity @ 40°C	161.6 cSt
Viscosity @ 100°C	19.6 cSt
TBN	7.54
Pour Point °C	TBA
Flash Point °C	TBA
Colour	Red
Viscosity Index	139
Ash, Sulphated	1.10
Density @ 15°C kg/L	0.874

Exceeds Service Classifications:

- API SN,SL,SJ,SH,SG,SF,SG / CF
- ACEA A3,A2,B2
- MIL-L-46152E
- MIL-L-21260DMIL-L-2104E
-

PM403 is the first choice for older and newer model petrol/gas converted engines.

DO MORE WITH LESS

Benefits:

- Reduces Friction and Wear
- Improves Power
- Exceptional Cleanliness
- Lower Wear Rates
- Sustains Oil Pressure
- Minimises Oil Consumption
- Resists viscosity Thickening

Why PM Lubrication?

- ★ Premium Quality Lubricants
- ★ XPR Xtra Protection Reserve
- ★ Onsite Monitoring will maximise your equipment life
- ★ Micro-Filtration will extend engine life

Available in 205L, 20L, 5L Containers
