

Advanced Performance and Protection for Everyday Driving

Product Information

PM409 MotorLife Premium provides excellent protection and is formulated using Group 2 Hydrocracked base oil and the latest additive technology. This premium quality engine oil meets and exceeds the API SN/CF, as well as meeting the latest ILSAC energy-conserving rating, GF-5+. The lubricant will continue to perform under Australia's demanding conditions, such as high-temperature highway operation or lower-temperature everyday stop-start driving around town. Viscosity shear is minimized, which in turn provides enhanced thermal stability and will inhibit the formation of excessive contamination, which could result from regular short running in a stop-start environment.

PM409 MotorLife Premium provides greater protection from the effects of oxidation and piston deposits, keeping your engine running in peak condition for longer. This product will maintain superior lubrication properties under tough conditions. PM409 is recommended for four-stroke engines in passenger cars and light commercials where the manufacturer requires a low viscosity multi-grade oil or where superior fuel efficiency is required. PM 409 is suitable for all types of four stroke engine, including diesels, in current and earlier passenger cars, 4WD vehicles, vans and light duty trucks requiring an API: CF or ACEA: B2, B3 specification, operating under vehicle manufacturers' recommended maintenance procedures, and exposed to severe and varied conditions, such as high temperature motorway driving or low temperature stop-and-go driving in. Minimizes friction and wear while maintaining power output. Sustains oil pressure.

Incorporates all of PM Lubrication's Friction Reduction Technology

Typical Properties:

SAE Viscosity	10W40
Kinematic Viscosity	
Viscosity @ 40°C cSt	90.6
Viscosity @ 100°C cSt	13.5
TBN	8.31
Pour Point °C	-36
Flash Point °C	TBA
Viscosity Index	143
Ash, Sulphated	0.96
Density @ 15°C kg/L	0.866

Exceeds Service Classifications:

- ★ API SN, CF
- ★ ACEA A3/B3, A3/B4-12
- ★ ILSAC GF-5+
- ★ Ford Model AU onwards; M2C.153E
- ★ Holden VS & VT ONWARDS
- ★ Mercedes-Benz 226.0,229.1
- ★ Nissan
- ★ Rover RES.22.OL.G-4
- ★ VW 500,501,505

Benefits:

- Reduces Friction and Wear
- Improves Power
- Exceptional Cleanliness
- Lower Wear Rates
- Sustains Oil Pressure
- Minimizes Oil Consumption
- Resists Viscosity Thickening

PM409 MOTORLIFE PREMIUM

Good for petrol & diesel engines in daily use

Why PM Lubrication?

- ★ Premium Quality
- ★ XPR Protection Reserve
- ★ Cost-Effective Lubrication
- ★ On-Site Monitoring will maximise equipment life
- ★ Knife Edge Filtration

Available in 200L, 20L, 5L, 4 x 5L Containers

Issued on 10/10/2025
