

Product Information

Mono 30 (formerly R-011) is an advanced monograde heavy-duty mineral oil for use in a wide range of petrol and diesel and naturally aspirated engines. The high film strength and load-carrying capacity of this lubricant will see engines experience lower wear rates and improved fuel economy.

Mono 30 combines high-quality paraffinic base oils, anti-wear, foam-controlling additives, and high-temperature detergents, oxidation, rust, and corrosion inhibitors to achieve outstanding results in engine cleanliness and performance.

The lubricant also provides outstanding results in carbon deposit control in the upper piston region. The nature and formulation of a monograde oil produce benefits in the area of oil thinning and oil consumption. Corrosion and rust are also inhibited by this premium lubricant.

Mono 30, through its advanced formulation, is a monograde engine oil for use in four-stroke unleaded and diesel engines, naturally aspirated. Ideally suited to air-cooled stationary motors on pumps, compressors, conveyors, augers, and four-stroke lawn mowers, where a light viscosity monograde is recommended. This product meets the recommendation for Briggs and Stratton-designed and produced engines. PM430 is also recommended for vintage cars where low additive lubricants are required.

PM Lubrication's Mono 30 minimizes friction and wear while maintaining power output. Sustains oil pressure

Typical Properties:

SAE Viscosity	30
Kinematic Viscosity	
Viscosity @ 40°C	109 cSt
Viscosity @ 100°C	12 cSt
TBN	6.4
Pour Point °C	-21
Flash Point °C	228
Colour	Red
Viscosity Index	100
Sulphated Ash Wt %	0.83
Density @ 15°C kg/L	0.895

Benefits:

- Reduces Friction
- Exceptional Cleanliness
- Lower Wear Rates
- Lower Emissions
- Fuel Conservation
- Resists Viscosity Thickening

Exceeds Service Classifications:

- API CD SF
- Allison C3
- Briggs & Stratton CD-11,SF
- Caterpillar TO-2
- Ford M2C153C,M2C101C
- GM 6094M
- JASO MA (including wet clutches)
- MB 228
- MIL-L-46152B, MIL-L-2104E

PM430 MONO 30

Covers a wide range of applications

Why PM Lubrication?

- ★ Premium Quality
- ★ XPR Protection Reserve
- ★ Cost-Effective Lubrication
- ★ On-Site Monitoring will maximise equipment life
- ★ Knife Edge Filtration

Available in 1000L, 200L ,20L, 5L, 4 x 5L Containers

Issued on 3/10/2025
