

PM500

BACKRUBBER OIL

A premium quality carrier oil for insecticides

Product Information

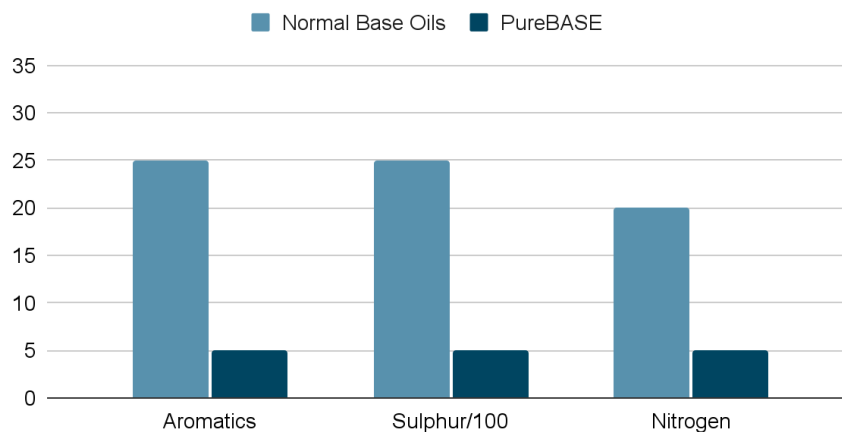

PM500 Backrubber Oil is a premium carrier oil for insecticides registered for back rubber use and is manufactured from a very highly refined pure base stock using superior additive technology to produce an effective, clean, and safe insecticide carrier for the control of Buffalo Fly, March Fly, and other biting insects.

PM500 Backrubber Oil uses PureBASE base stock which means it is free of any contaminants that may cause concern to the regulatory authorities and could potentially bring distress to the animal. PM 500 has an unmatched level of purity when compared to other similar products.

PM500 uses a specialized additive in the formulation.

PM500 will not drip off easily, even in high ambient temperatures.

The Difference in purity between Normal Base Oil & PM PureBASE Backrubber Oil

Typical Properties:

Viscosity @ 40°C	100 cSt
Pour Point °C	-30
Colour	Clear
Density @ 15°C kg/L	0.889

Benefits:

- ★ Compatible with all insecticides
- ★ Effective across a wide temperature range
- ★ Has no irritants.
- ★ Enables better weight gains.
