

PM600-50

Coolcor Long Life HD Coolant
50% Premix

Organic Acid Technology Universal Engine Coolant

Product Information

PM600-50 Coolcor Long Life HD Coolant 50% Premix is a long-life, ethylene glycol-based anti-boil, anti-freeze coolant and an organic-acid-based rust and electrolysis inhibitor, developed to meet engine manufacturers' requirements and deliver excellent performance in low and high temperature operation, providing the required protection. Long-life hybrid technology has a decisive advantage in its robustness against conventional and Organic Acid Technology (OAT) engine coolants and is fully compatible with both. PM600-50 Coolcor Long Life HD Coolant 50% Premix contains 90% high-grade mono-ethylene glycol and premium OAT inhibitors. PM600 Coolcor Long Life HD meets the phosphate-free requirements of European manufacturers and the silicate-free requirements of Japanese manufacturers. It is recommended for use in all passenger cars, 4WDs, and light- and heavy-duty diesel applications, including safeguarding aluminium in high-temperature zones.

Service Life: PM600-50 Coolcor Long Life HD Coolant 50% Premix has a service life of 10 years/1,000,000 km for Automotive and Heavy-Duty Engines. PM600-50 Coolcor Long Life HD Coolant 50% Premix does not require an initial charge of supplemental coolant additives (SCAs) for initial fill in heavy-duty diesel applications, as the product is formulated to protect diesel engine wet sleeve liners.

PM600-50 Coolcor Long Life HD Coolant 50% Premix is a 50/50 PREMIX COOLANT AND DEMINERALISED WATER

Benefits

- Extended Life Protection & Performance
- Low Ambient Temperature Protection
- Protects Against Corrosion
- Phosphate and Amine Free
- Water Pump Lubrication
- Compatibility With Seals & Hoses
- Meets or Exceeds OEM Approvals
- Universal Use
- Glycol Fortified

Provides the Required Protection

Available in 20L, 5L Containers

Issued January 2026

Why PM Lubrication?

- ❖ Premium Quality
- ❖ XPR Protection Reserve
- ❖ Cost Effective Lubrication
- ❖ On-Site Monitoring will maximise equipment life
- ❖ Knife Edge Filtration
- ❖ Our Predictive & Preventative Maintenance Programme is GUARANTEED to save 15% of your total operating costs
