

Improve Fuel Economy with Efficiency

Product Information

PM900 FSX Fuel System Conditioner Xtra - diesel engine Original Equipment Manufacturers have long called for optimal performance while adhering to emission compliance within the industry. PM900 FSX Fuel System Conditioner has been developed in response to industry initiatives. PM900 FSX Fuel System Conditioner Xtra is a balanced formulation that delivers cleaning and maintenance performance in diesel operation, both on- and off-road.

Maintaining fuel injection systems is critical, as fuel quality ultimately determines engine life. Cleanliness and precise delivery are even more vital in the latest-generation power plants. PM900 FSX will deliver significant consumer benefits, including cost savings, as peak performance is restored and maintained in everyday operations.

PM900 FSX Fuel System Conditioner Xtra is a multifunctional diesel treatment, injector cleaner, and cetane improver. Significant fuel efficiency gains can be achieved with late-model diesel engines. Cetane is a measure of the time delay between injection and ignition in diesel engines. A higher cetane number indicates a shorter ignition delay.

PM900 FSX Fuel System Conditioner Xtra totally disperses water and inhibits the algae growth in diesel fuel. Helps control exhaust emissions, produces quieter operation, restores peak performance, reduces diesel knock, and improves cold start. PM900 FSX Fuel System Conditioner Xtra meets Cummins L10 injector clean test.

PM900 FSX Fuel System Conditioner Xtra brings a new dimension to Diesel Engine Operations. By restoring the fuel system to optimal performance (to achieve more complete combustion, reduced fuel consumption & minimised fuel service costs can be expected.

Benefits

- Cetane Improver
- Improves Power
- Improved Fuel Economy
- Lower Exhaust Emissions
- Reduces Smoke
- Disperses Water
- Rust Preventative
- Inhibits Metal Corrosion
- Cleans from Tank to Exhaust
- Easier Cold Starts
- Reduces Diesel Knock

Treatment Rates

1 to 1,000 ratio or 1mL to 1L of fuel

Regular Service:
100mL PM900 to 100L of fuel (1:1000)

PM900 FSX Fuel System Conditioner Xtra
For Diesel Engines

Why PM Lubrication?

- ❖ Premium Quality
- ❖ XPR Protection Reserve
- ❖ Cost Effective Lubrication
- ❖ On-Site Monitoring will maximise
- ❖ equipment life
- ❖ Knife Edge Filtration

Available in 200L, 20L, 5L, 4 x 5L, 1L, 12 x 1L, 500ML, 12 x 500ML Containers

Issued January 2026

PM Lubrication
